*I live in Leeds in the beautiful county of Yorkshire, in the United Kingdom, with my husband Ralph, young son Leo and spinger spaniel Obi. I have been a full time artist for about 12 years. Ever since I was a child and my father read me The Hobbit, I loved the world of fantasy. It is wonderful to be able to work as an artist and share my visions of fantasy worlds and characters with other people.*

*I have produced a lot of artwork for clients in the games industry, including illustrations for Wizards of the Coast's Dungeon and Dragons rule books and miniatures.*

*Wer kennt es nicht, das Feuerzeug mit dem charakteristischen Click, das immer funktioniert? Aber wissen Sie auch, wie der Zippo Lighter seinen Namen bekam? Bei der Namensgebung ließ sich der amerikanische Unternehmensgründer George G. Blaisdell von einer anderen Erfindung seiner Zeit inspirieren – dem Reißverschluss. Er mochte den Klang des Namens „Zipper" und nannte sein Feuerzeug einfach „Zippo".*

*Don't we all know it – the Zippo cigarette lighter with the characteristic click that always works? But do you also know how the Zippo lighter got its name?*
*For finding a name, the American company founder George G. Blaisdell let himself be inspired by another invention of his times – the zipper. He liked the sound of that word – and simply called his invention zippo.*

**Zippo's Iced process** highlights multi-faceted engraving layered with a translucent powder coat to give the illusion of looking through a thin sheet of ice. Design is on both front and reverse surface of the lighter. May be imprinted over Iced surface for a truly unique look.
Early in 2010, Zippo began to laser the finish off the hinge of powder coated lighters. Although implemented primarily for cosmetic reasons, lasering the hinge area will provide another indicator of a genuine Zippo lighter. Several years ago, we began lasering the powder coat off the bottom of matte lighters to enable clearer view of the bottom stamp identifying the lighter as a genuine Zippo lighter. Similar to this enhancement, a lasered hinge barrel will provide further assurance that the unit is a genuine Zippo lighter.

## 1935 Replica

The 1935 lighter, one-eighth inch shorter than subsequent models and manufacted for less than three years, has been replicated in stunning detail featuring the original look and elements that made this lighter one of the most collectible in Zippo's history.
Like the original, the 1935 Replica features a three-barrel outside hinge joining the lid and bottom, an open hollow rivet that secures flint wheel to inside unit, a flat bottom case, and slashes on the opposite corners of the face and back surfaces. A distinctive bright brushed chrome finish and unique bottom stamp identify the 1935 Replica.
The 1935 lighter was the last of Zippo lighter production to feature the hinge on the outside of the case. Coincidentally, 1935 was the first year that company logos were applied to the face of the Zippo lighter, leading to the creation of the Zippo ad specialty division, later known as Zippo promotional products.

# Bottomz Up

## Bottomz Up

*For decades, the Zippo bottom stamp has marked the authenticity of every genuine Zippo lighter. The simple system of dots and slashes, initiated to aid identification of lighters coming back to Zippo for repair, was later replaced by letters and Roman numerals, and still later by letters and digits signifying the month and year of manufacture.*
*Now Zippo is turning the whole system upside down ... literally.*
*Bottomz Up displays the traditional Zippo stamp not only on the bottom, but also on the top of the high polish chrome lighter. The conventional date code, showing month and year of manufacture, is stamped on the canned-style bottom while the canned-style lid is branded with the year of manufacture and the symbol identifying it as Bottomz Up.*
*This lighter marks the inaugural release of Bottomz Up.*
